ABOUT

Hi, I'm Arunkumar G, a B.Tech Information Technology graduate from Thirumalai Engineering College (2025) with a CGPA of 8.04. I have knowledge of Java, Spring Boot, Oracle SQL, MySQL, HTML, CSS, and JavaScript.

I enjoy building web applications, learning new technologies, and improving my problem-solving skills. I am currently seeking an opportunity to start my career as a software developer and contribute to meaningful projects.

SKILLS

- **Programming:** Java
- **Framework:** Spring Boot
- **Databases:** Oracle SQL, MySQL
- **Web Technologies:** HTML, CSS, JavaScript

- **Tools:** Git, GitHub, VS Code, Eclipse
- **Core Concepts:** Object-Oriented Programming (OOP), JDBC, REST APIs

PROJECTS

E-Commerce Product Management Application

A full-stack web application developed for managing e-commerce products using React.js, Spring Boot, Spring Data JPA, and MySQL. The application provides product management functionality with CRUD (Create, Read, Update, Delete) operations through a user-friendly interface. The project demonstrates my skills in building frontend interfaces, developing RESTful backend services, connecting databases, and implementing full-stack application architecture. It helped me improve my understanding of backend development, API integration, database handling, and modern web application development.
