SUMMARY

Highly motivated B.Tech Information Technology graduate with strong knowledge of Core Java, SQL, OOPs, Collections Framework, JDBC, and software development principles. Familiar with web technologies and frameworks including HTML, CSS, JavaScript, Hibernate, JPA, and Spring. Quick learner with good problem-solving, communication, and teamwork skills.

EDUCATION

B.Tech (IT)

Thirumalai Engineering College
(Anna university institution)
09/2021 - 05/2025 | CGPA-8.04

Higher Secondary (HSC)

Suraj Matric Higher Secondary School
01/2021 - 12/2021 | PCT-83.33%

Secondary School (SSLC)

Suraj Matric Higher Secondary School
01/2019 - 12/2019 | PCT-77%

SKILLS

• Programming Languages :

Core Java , JavaScript.

• Core Java Concepts:

OOPs , Collections Framework
Exception Handling ,
Multithreading, Stream API ,
Lambda Expressions

• Web Technologies:

HTML , CSS ,React.js,
Servlet & JSP

• Database Technologies:

Oracle SQL , MySQL

• Frameworks & Technologies:

JDBC , Hibernate , JPA .
Spring Framework ,
Spring Boot

• Tools & Software:

Git,GitHub, VS Code, EditPlus,
Eclipse EE, SQLPlus,Postman

• Soft Skills : Problem Solving,

Teamwork, Time Management,
Communication, Adaptability.

EXPERIENCE Intern - Student

[TECCITY LAB'S 07/2024 - 01/2025 CHENNAI, INDIA]

An internship focused on learning software testing and Software Development

- Learned and applied software development fundamentals, including requirement analysis, basic coding, and application flow design.
- Developed simple applications/modules using Java, following standard SDLC practices.
- Gained hands-on experience in manual software testing, including test case design, test execution, and defect reporting.
- Used Atlassian JIRA with Scrum boards to manage user stories, development tasks, and bug tracking in an Agile environment.
- Practiced version control using Git and GitHub for source code management and team collaboration.
- Worked closely with team members to ensure quality, functionality, and timely delivery of software.

STRENGTHS

- Strong understanding of Object-Oriented Programming (OOPs), Collections Framework, JDBC, and SDLC
- Good knowledge of Java concepts, database connectivity, and application development principles
- Familiar with software development processes and problem-solving techniques

PROJECTS

Bank Management System

Tech Stack: Java, Spring Boot, Spring Data JPA, MySQL, REST API, Maven, Swagger

- **Architecture:** Developed a Bank Management System using Spring Boot following a layered architecture (Controller, Service, Repository) to build scalable and maintainable RESTful services.
- **API Development:** Designed and implemented REST APIs for customer account management, transaction processing, and banking operations with proper request validation.
- **Core Features:** Developed functionalities for account creation, account details management, balance updates, and transaction handling integrated with a MySQL database.
- **Database (ORM):** Managed data persistence and entity relationships using Spring Data JPA/Hibernate with MySQL, ensuring efficient CRUD operations and transaction management.
- **Documentation & Validation:** Implemented Bean Validation for data integrity and integrated Swagger/OpenAPI for API documentation and testing.
